The screenshot displays the Agent Development Kit 2.4.0 web interface. On the left, a workflow diagram shows a green box labeled 'data_agent' connected by a dashed arrow to a grey dashed box labeled 'McpToolset'. The main panel is divided into tabs: 'Info', 'State', 'Artifacts', and 'Evals'. The 'Info' tab is active, showing 'Event 20 of 20'. Below this, an 'Invocation:' section displays a message: '#1 (We have budget for 3 coffee trucks. ...'. On the right, a chat window is open, showing a conversation with the agent. The chat history includes two messages from the user: '#18 execute_sql_readonly' and '#19 execute_sql_readonly'. The agent's response, labeled '#20', is a detailed analysis of Citi Bike trips in New York City, recommending the top 3 locations for coffee trucks. The first recommendation is 'Pershing Square North (Grand Central Terminal)', with details on location, trip volume, and commuter share. The interface also features a top navigation bar with various utility icons and a bottom status bar showing system information like temperature and time.

#20

Based on an analysis of over 58.9 million trips in the bigquery-public-data.new_york_citibike.citibike_trips dataset, here are the 3 best Citi Bike stations to place your coffee trucks.

Top 3 Recommended Coffee Truck Locations

1. Pershing Square North (Grand Central Terminal)

- Location: 40.7519° N, -73.9777° W (Midtown East / Grand Central Terminal)
- Total Trip Volume: 858,008 trips (#2 overall in network)
- Morning Commute Volume (6:00 AM – 10:00 AM): 272,300 trips (255,462 on weekday mornings)
- Subscriber / Member Share: 94.1%
- Why this location: Serves as the primary East Midtown transit hub. Thousands of daily commuters exit Metro-North and subway lines at Grand Central Terminal.
